TURNING DREAMS
INTO REALITY

GrillKing

Custom Projects for VIP clients

Our international team is ready to bring your dreams into reality. We specialize in the development, design, and implementation of individual projects for the VIPs of Kazakhstan. Inspired by local culture and drawing on the experience of our work with U.S. luxury homes in the Silicon Valley, and combined with our GrillKing Luxury Leisure Products brand, we bring our clients' dreams to life like no other. With local manufacturing in Almaty, Kazakhstan, we are able to provide our clients with truly custom work of the highest quality, as well as unmatched support and service.

Custom Fire Pit Areas

The Kings Table

Our team was inspired and challenged to create the most luxurious outdoor dining experience ever. The enticing sound and smell of sizzling steaks, the allure of artistic design, and the indulgence of dancing warming flames right at your dining table.

To bring this dream to reality we brought together the highest quality materials available. For the table we chose the premium Karagatch (Elm Wood) and had it thermally treated with the latest “Thermo-Wood” treatment process (a European technology). At the heart of the table are two custom designed BBQ grills made of high grade 304 stainless steel. The metal finish is achieved with a premium 4 step powder coating process which creates a brilliant look that is both highly durable and weather resistant. Included with the table is every accessory a BBQ enthusiast could ever need, all designed to conveniently store in the table itself.

The moment you sit down, you will see that this table truly was precisely engineered and masterly crafted for the most prestigious of people.

The Peak of Luxury

GrillKing

The Royal Bonfire

The Royal Bonfire's beautifully inspired design brings beauty to any yard or area. With dancing flames from the "Double Burn Fire-Jets" and clean, clear burning fire the Royal Bonfire is not just gorgeous but also functionally outstanding. Its premium hardwood bar height table, large multi-zone cooking ring, and reduced smoke fire draw people around it for a good time that will be talked about for years to come.

The Hexagon Gas Fire Pit was created to be an attention grabber. A large beautiful fireplace that radiates warmth and attracts people to itself. The 1.4m large design and powerful 6-pipe burner create a wonderful atmosphere while providing warmth and comfort. The spacious 20 cm table edges are ideal for placing drinks, books or snack plates. The hexagonal fire pit was designed with the goal of having plenty of space for people to sit around and enjoy a cool autumn evening.

Hexagon Gas Fire Pit

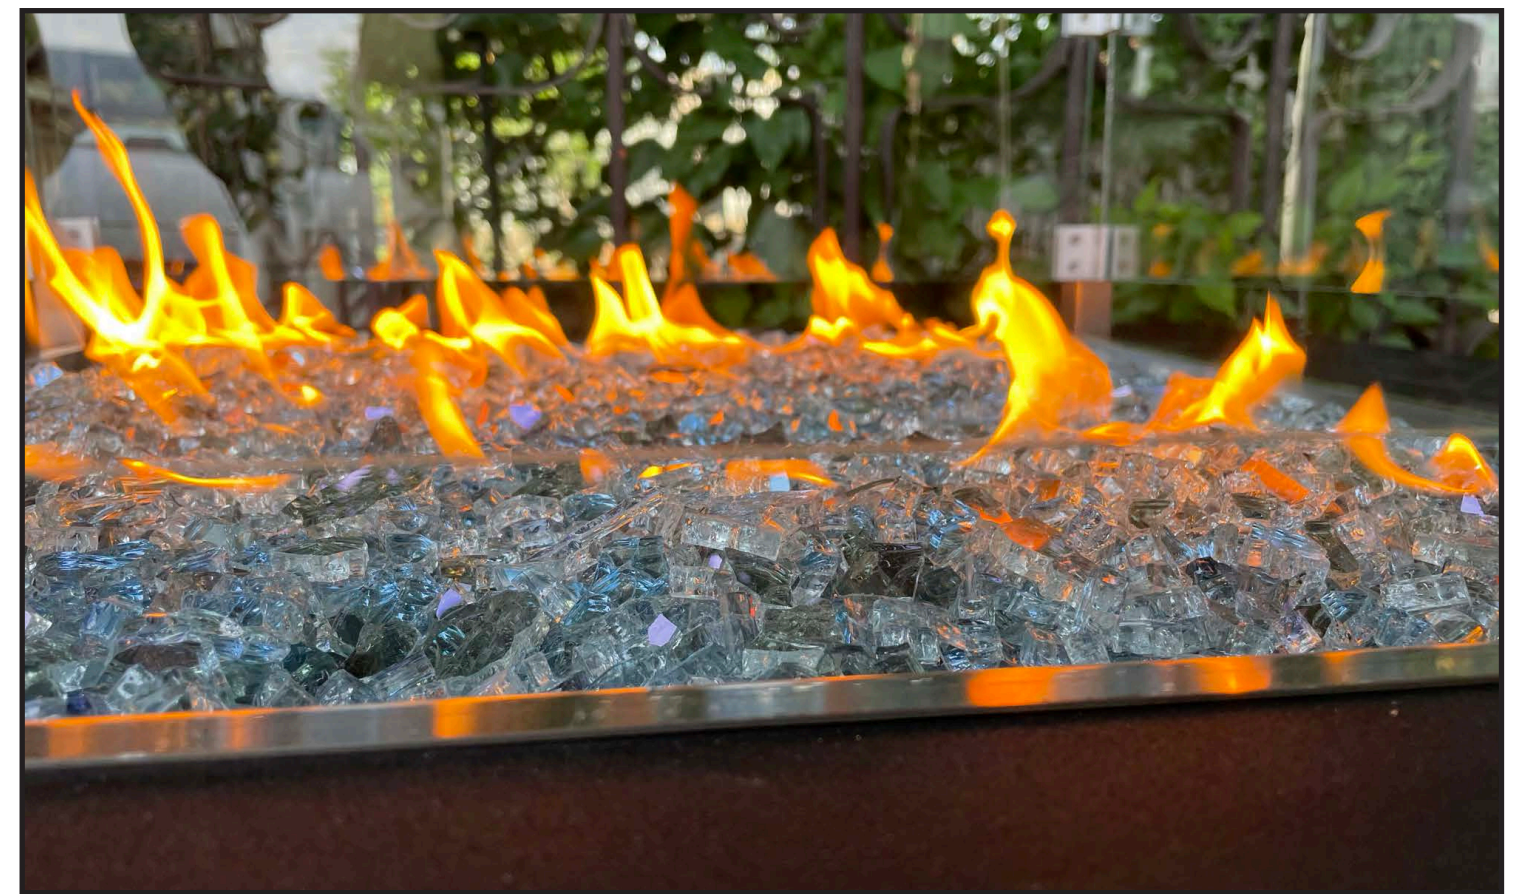

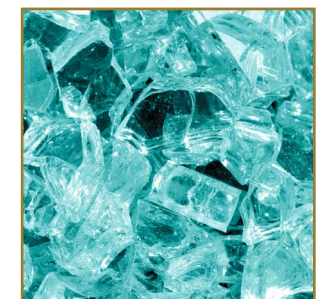

Luxor Fire Pit

Make a bold statement of class and luxury by adding the Luxor Gas Fire Pit to your yard or patio. Enjoy the comfortable atmosphere of beautiful dancing flames and sparkling glass while warming yourself and your guests around the table. Inspired by the Luxor hotel in Las Vegas, and some outside the box thinking, we are sure this is the most beautiful gas fire pit you will ever see.

The main body of The Luxor Fire Pit is made of beautiful 304 grade stainless steel, which contrasts perfectly with the beautiful black pyramid centerpiece. The dancing flame is surrounded by transparent glass, protecting it on windy days. Inside you will see a beautiful scattering of fire-resistant glass, sparkling and reflecting flames and radiating heat to create a perfect relaxing atmosphere.

Choice of Fire Glass Color

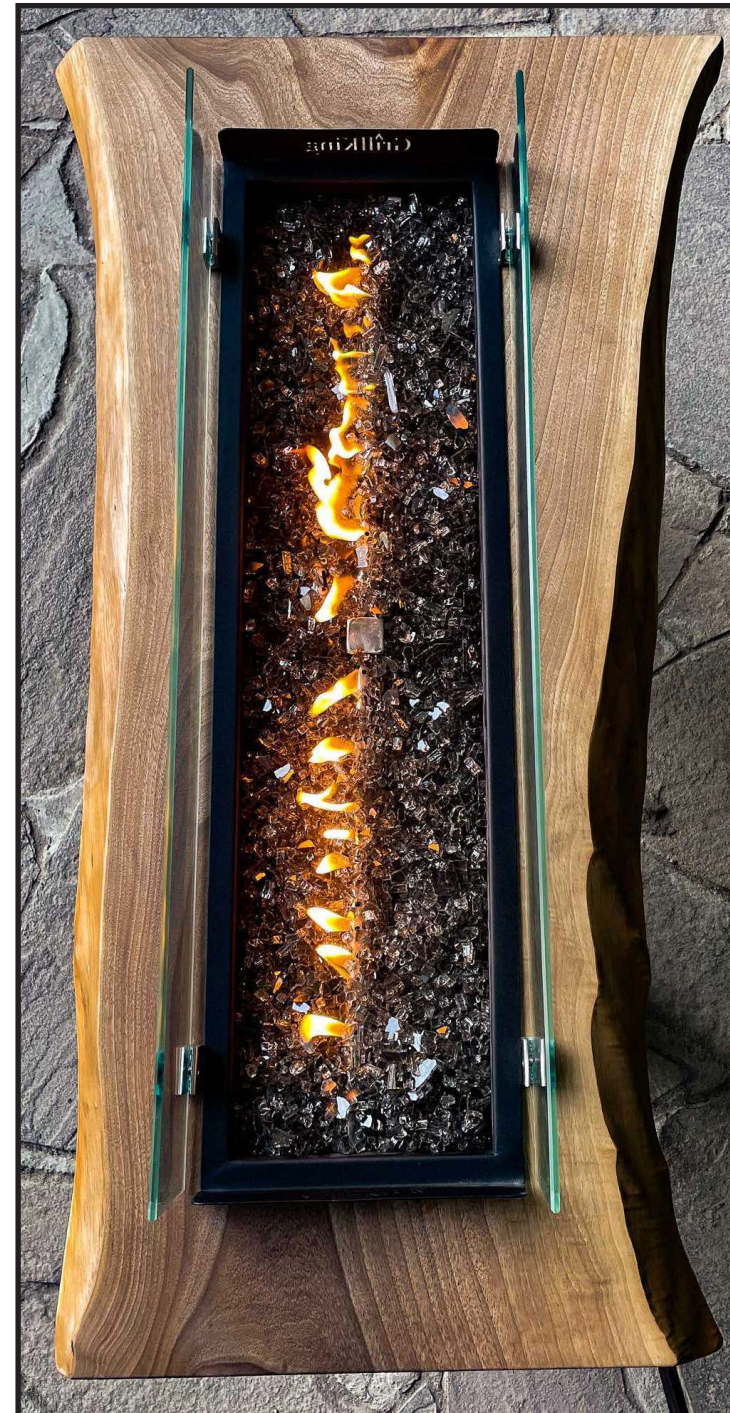

Live Edge Fire Tables

One of a Kind Designs

Beautiful Atmosphere:

Beautiful dancing flames reflecting off the glass and glass surface combine with warm radiation to create the perfect atmosphere for a relaxing evening or dinner.

Truly One of a Kind:

The use of premium-class slabs of heat-treated hardwood with natural edges ensures that each table will be truly unique, exclusive for you. Choose one of our already custom-made products or work with us to choose the perfect unique slab for your space.

Choice of Size:

Our tables can be ordered in any size. You can choose from a small elegant coffee table to a dazzlingly large dining table, sized to accommodate your honored guests. From 100 cm to 300 cm or more - we can do anything according to your needs.

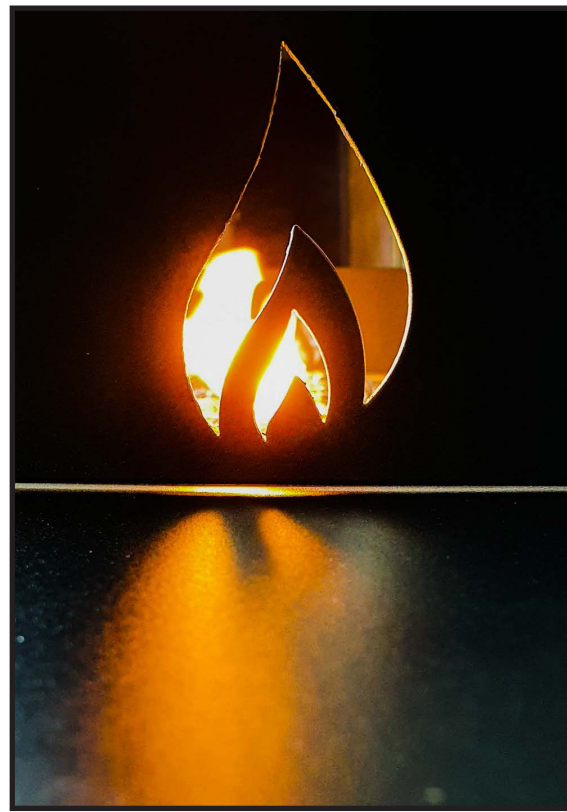

Unique Designs:

We have created several unique leg designs that perfectly combine with our beautiful slab's natural edges to make our Live Edge Fire Table a truly brilliant attraction. Contact us and we will work to find the perfect slab for you.

Conversation Table

The "Conversation" table was designed specifically for premium coffee shops and public terraces. Customers and guests can safely enjoy the warm atmosphere and the dancing beauty of the flames. Due to the public nature of such locations, it was designed to be strong, reliable, and include anti-tampering features. We moved the trigger and valve system inside a hidden door to prevent access by children and casual guests.

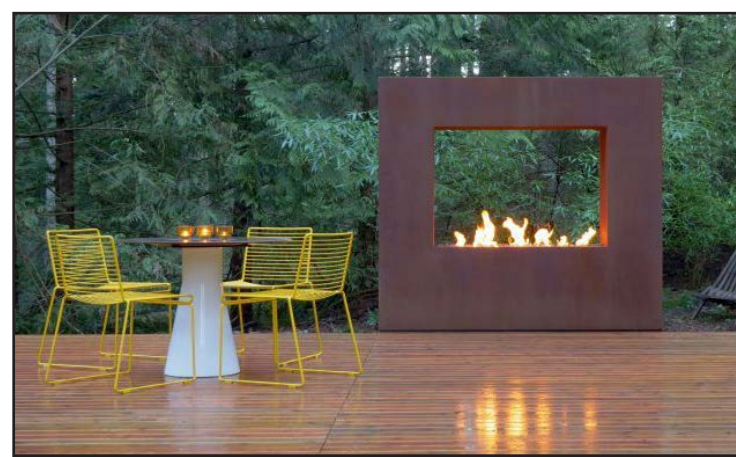

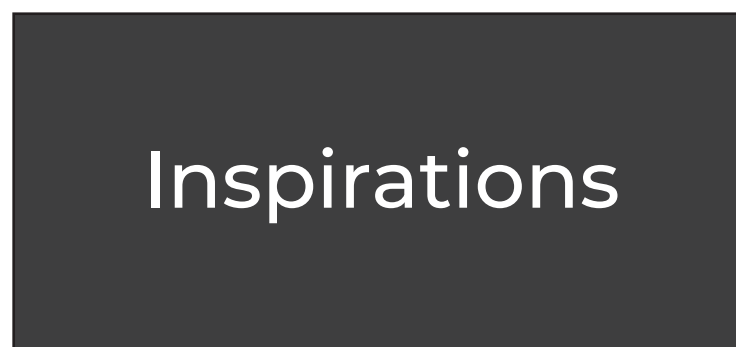

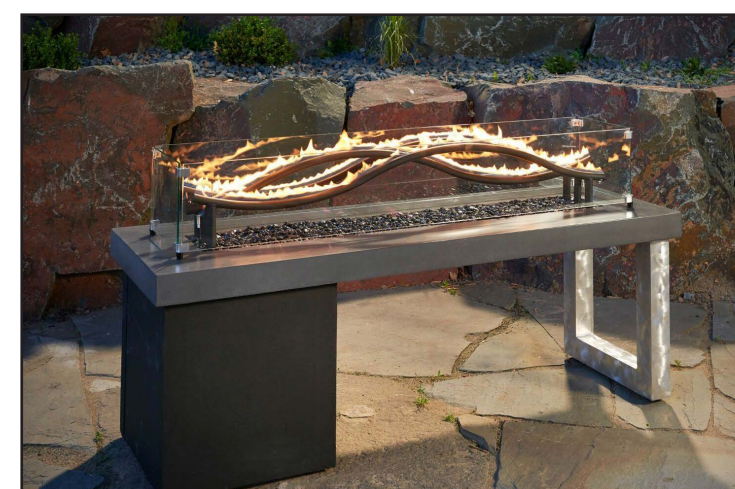

The Conversation table can run on natural gas or propane gas and is available in a wide choice of colors - perfect for your intended location.

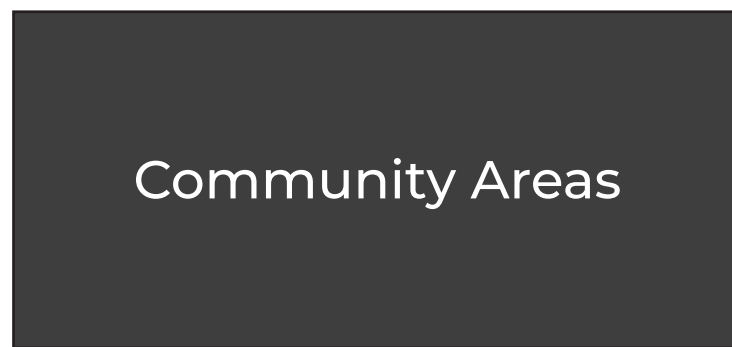

Bonfire Grills

GrillKing's Bonfire Grills are designed specifically to bring friends and family together for good food around a warm beautiful fire. Easy to use and packed with features, this product has it all. At their heart is our industry-leading "Double Burn Fire-Jet Airflow Technology". Our Bonfire Grills produce significantly less smoke and burn much more efficiently than conventional fires. The Bonfire Grill comes in 3 different sizes and is available with or without our premium cooking accessories.

About Our Team

Our story begins with an international team of entrepreneurs, engineers, and craftsmen locked in a worldwide quarantine. Inspired by the local culture of the people of Kazakhstan, we came together to turn the classic American-style barbecue into completely new and exclusive products. Our goal is to bring people together for a great time around something unique and new. With this goal in mind, our products began to take shape. The results: a new era of functional and artistic barbecues and fire pits was born. Our team continues with the same innovative drive to create new products inspired by our goal of uniting people around new, unique experiences. Follow along with us on this journey and have first access to the exclusive experiences we offer.
